

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. **EXPLANATIONS of the DIFFERENCES between the AMOUNTS PROPOSED in the ARMY ESTIMATES for 1896-97 and the AMOUNTS VOTED for 1895-96.**

**VOTE A.—NUMBERS.**

The increases and decreases in the Establishment of the Army are detailed on page 7.

**VOTE 1.—PAY, &c. OF THE ARMY.**

Net Increase        -        -        -        £. 20,550.

|  |   |
|--|---|
| <b>A.—General Staff</b> -        -   | The increase on Pay of the General Staff is caused by special provision made for Temporary Staff during Manœuvres.  |
| Increase        - <u>£. 1,700.</u>   |   |
| <b>C. (1) Regimental Pay</b> -   | The increase of Regimental Pay is due to the increases of the Regimental Establishments detailed on page 7.   |
| Increase        - <u>£. 3,050.</u>   |   |
| <b>C. (2) Deferred Pay</b> -   | There will be fewer men leaving the Colours in 1896-97 than in 1895-96.   |
| Decrease        - <u>£. 8,000.</u>   |   |
| <b>D.—Regimental Extra Pay</b>   | The increase in the amount for Regimental Extra Pay is mainly on account of Good Conduct Pay, the charge for which is growing in consequence of additions made to the Regimental Force during the past few years. |
| Increase        - <u>£. 8,600.</u>   |   |
| <b>E.—Regimental Allowances</b>  | The decrease is almost all under the head of Debtor Balances of Non-effective Soldiers, and so far is due to a recent change in the regulations, which throws the charge upon other Votes.                        |
| Decrease        - <u>£. 7,400.</u>   |   |
| <b>H. — Wages of Supply, Transport, and Ordnance Store Establishments.</b> | The increase is caused by provision for labour during manœuvres and by necessary additions to the numbers of Barrack Wardens and the Water Transport Establishment.   |
| Increase        - <u>£. 20,100.</u>  |   |
| <b>I.—Recruiting Expenses</b> -  | The expenditure under this sub-head has of late fallen short of the Estimate.   |
| Decrease        - <u>£. 800.</u>   |   |
| <b>J.—Army Pay Department.</b>   | The decrease is due to the retirement of Senior Officers and to a reduction in the number of Staff Paymasters.  |
| Decrease        - <u>£. 2,350.</u>   |   |
| <b>L.—Schools of Gunnery</b> -   | An additional Officer as Gunnery Instructor and two Non-commissioned Officers have been provided for.   |
| Increase        - <u>£. 600.</u>   |   |
| <b>T, U.—Chaplains' Department.</b>  | Officiating Clergy have been employed in two or three cases in lieu of Chaplains, thus causing a saving.  |
| Decrease        - <u>£. 200.</u>   |   |
| <b>X.—Pay, &amp;c., of Staff of Military Prisons.</b>                      | The increase is caused by the addition of a Governor for Brixton Prison.  |
| Increase        - <u>£. 200.</u>   |   |
| <b>Z.—Rewards for Apprehension of Deserters.</b>                           | The number of Deserters shows a marked decline.   |
| Decrease        - <u>£. 500.</u>   |   |
| <b>AA.—Pay of Army Reserve</b>   | The number of Army Reserve Men will be slightly less than in 1895-96.   |
| Decrease        - <u>£. 3,000.</u>   |   |
| <b>BB.—Appropriations in Aid</b>   | The Colonial Contributions are estimated in accordance with the settlements recently arrived at between the Colonies and the Home Government, and show a falling off of 10,000 <i>l</i> .                         |
| Decrease in Receipts        - <u>£. 8,300.</u>                             |   |

EXPLANATIONS of the Differences between the Estimates for 1896-97 and those for 1895-96 — *continued.*

|   |                    |  |
|---|--------------------|--|
| <b>VOTE 2.—MEDICAL ESTABLISHMENT</b> -                | -                  | The increase is due to the periodical increments of pay of the Medical Staff. There is a saving on the item for Medicines.   |
| Increase - - -  | <u>£. 2,800.</u>   |  |
| <b>VOTE 3.—MILITIA: PAY AND ALLOWANCES</b> -          | -                  | The decrease in the Vote for the Militia is due chiefly to a reduction in the charge for Bounty, caused by a decline in numbers in 1894-95, and by alterations in the regulations.   |
| Decrease - - -  | <u>£. 12,000.</u>  |  |
| <b>VOTE 4.—YEOMANRY CAVALRY: PAY AND ALLOWANCES.</b>  |                    | There is no change in the total of the Vote.   |
| <b>VOTE 5.—VOLUNTEER CORPS: PAY AND ALLOWANCES.</b>   |                    | The decrease on the Volunteer Vote is due to the fact that the Supplementary Estimate for 1895-96 provides for the payment of the whole Capitation Grant usually due in April. Half the Grant only is taken in this Vote, in addition to the sum included in the Supplementary Vote.   |
| Decrease - - -  | <u>£. 199,700.</u> |  |
| <b>VOTE 6.—TRANSPORT AND REMOUNTS</b> -               | -                  | The increase on the Transport Vote is due to the provision for manœuvres on a large scale. But for this, the Vote would show a reduction.  |
| Increase - - -  | <u>£. 28,200.</u>  |  |
| <b>VOTE 7.—PROVISIONS, FORAGE AND OTHER SUPPLIES.</b> |                    | The decrease on the Vote for Provisions is due to the low prices prevailing.   |
| Decrease - - -  | <u>£. 61,100.</u>  |  |
| <b>VOTE 8.—CLOTHING</b> - - - -                       | -                  | The increase on the Vote for Clothing is mainly due to the increase of the Establishment of the Army, and the necessity of providing Clothing supplies for manœuvres.  |
| Increase - - -  | <u>£. 18,000.</u>  |  |
| <b>VOTE 9.—WARLIKE STORES</b> - - -                   | -                  | The increase on the Vote for Warlike Stores is due to the provision of the new gun for the Royal Horse Artillery and the conversion of the present equipment of the Horse and Field Artillery. Increased provision is also made for Quick-firing Guns and the completion of the Reserve of Small Arm Ammunition.   |
| Increase - - -  | <u>£. 180,150.</u> |  |
| <b>VOTE 10.—WORKS AND BUILDINGS</b> -                 | -                  | The increase on the Works Vote is due to an automatic increase in the amounts payable for Annuities under the Barracks Act.  |
| Increase - - -  | <u>£. 18,100.</u>  |  |
| <b>VOTE 11.—EDUCATIONAL ESTABLISHMENTS</b> -          | -                  | The increase on the Vote for the Educational Establishments is chiefly caused by a loss of Cadets' Contributions from the Academy, consequent upon a reduction of numbers. The item for Regimental and Garrison Schools shows an increase.   |
| Increase - - -  | <u>£. 5,400.</u>   |  |
| <b>VOTE 12.—MISCELLANEOUS EFFECTIVE SERVICES.</b>     |                    | The increase on the Miscellaneous Vote is due to an increase of the charge for Police. Provision has also been made for repaying to the General Post Office the loss incurred by that Department in connection with the investment of Soldiers' Deferred Pay in the Post Office Savings Bank.  |
| Increase - - -  | <u>£. 2,400.</u>   |  |
| <b>VOTE 13.—WAR OFFICE</b> - - - -                    | -                  | The decrease on the War Office Vote is caused by changes among the Head-quarters Staff, and by reductions of the Higher Division Civil Establishment.  |
| Decrease - - -  | <u>£. 5,000.</u>   |  |
| <b>NON-EFFECTIVE SERVICES:</b>                        |                    |  |
| Net Increase - - -                                    | <u>£. 8,200.</u>   |  |
| <b>VOTE 14.—RETIRED PAY, &amp;c. OF OFFICERS.</b>     |                    | The increase for the Retired Pay, &c. of Officers, is mainly to provide for the large number of Regimental Officers who retired in 1895-96. There are considerable decreases in the items for Half Pay of Regimental Officers, Compensation awarded by the Army Purchase Commission, and Commutation of Retired Pay, and an increase in the Receipts from India. |
| Increase - - -  | <u>£. 2,000.</u>   |  |
| <b>VOTE 15.—PENSIONS, &amp;c. OF MEN</b> -            | -                  | The increase for Pensions, &c. of Men is mainly on account of Pensions to Warrant Officers, and Campaign Pensions.   |
| Increase - - -  | <u>£. 2,800.</u>   |  |
| <b>VOTE 16.—SUPERANNUATION, &amp;c.</b> -             | -                  | It is anticipated that the amount of Civil Superannuation Allowances awarded in 1896-97 will exceed that of the Pensions which lapse.  |
| Increase - - -  | <u>£. 3,400.</u>   |  |

\* The Royal Warrant regulating the pay of the establishment of Commissioned Chaplains grants promotion from one class to another for length of service. This causes the number in each class to vary from year to year. The pay of two Army Chaplains is provided elsewhere, one on the establishment of the Royal Military College, and one on that of the Royal Military Asylum.

\* The payments which would in ordinary course have been made in April 1896 have been already provided for by the Supplementary Estimate of 26th February 1896. The amounts taken in the above Estimate represent one half of the sum which would, under the rules hitherto in force, have been issued in April 1897.

† A sum of 9,000l. has been provided in the Supplementary Estimate of 26th February 1896 for Travelling Allowances for attendance at United Drill and at Gun Practice. The Estimate on account of these two services is accordingly reduced by one-half that amount, see preceding note.

\* The Pay of the Officers, Non-Commissioned Officers and Men of the Inspection Staff is provided for under Vote 1, Sub-head C.; 24,650l. taken under Vote 9 on this account in 1895-96 has been transferred to Vote 1.

† One is a Retired Riding Master, who, in addition to the above pay, is in receipt of retired pay.

‡ The present holder also receives an allowance of 150l. from the Vote for the Ordnance Factories.

§ This title and salary are personal to the present holder.

|| Fixed salary without title to pension.

¶ This scale is personal to present holder.

\*\* £. 192,500 transferred from Vote 1, Sub-head H. (3) and 1,000l. from Vote 8, Sub-head E.

The Inspection Staff of the Army Ordnance Department inspects in detail both the Naval and Army Stores, as well as those supplied to the Colonies and India. The total value of the Stores to be so inspected is approximately 4½ millions. Towards the expense of the inspection, which (including 70,000l. for Stores used in proof and inspection) amounts to over 215,000l., a sum of 60,000l. is taken as an Appropriation in Aid on account of Stores inspected for the Navy.

## Vote 9.—SUPPLY AND REPAIR OF WARLIKE AND OTHER STORES—continued.

\* Personal to His Royal Highness the late Commander-in-Chief.

† The Royal Warrant of the 6th July 1895 provides that there shall be no *Establishment* of Lieutenant Generals or Major Generals, and that after the number of General Officers on the *late* Establishment has been reduced, as shown in Article 47—V. of that Warrant, the number of Field Marshals shall not exceed 6; that there shall be 10 Generals on the Establishment, and that the number of Lieutenant Generals and Major Generals shall not (except during a period of war) exceed 20 and 70 respectively.

Until the 1st January 1891 the Establishment of Effective General Officers, in addition to 6 Field Marshals, consisted of 10 Generals, 35 Lieutenant Generals, and 95 Major Generals. General Officers specially promoted for distinguished service were shown as supernumerary.

N.B.—The rates of Retired Pay, &c., shown in this Vote, are, generally speaking, those provided by the existing Royal Warrant. In some cases however, the amounts actually drawn exceed these rates, owing to compensation for loss of prospects having been awarded to Officers compulsorily retired. In other cases the rates have been reduced by partial commutation of Retired Pay, &c. In some instances rates awarded under old Warrants are still drawn.

F.—RETIRED PAY (INCLUDING RETIRED FULL PAY) OF  
REGIMENTAL OFFICERS—continued.

\* The Estimate for Retired Pay of Officers of the late Commissariat and Transport Staff is included under Sub-head C., page 98.

N.B.—The following are the rates at which pensions are awarded to the Widows, &c. of Officers under the Royal Warrant of the 6th July 1895:—

|  |                |
|--|----------------|
| To the Widow of a—   | £. 120 a year. |
| Field Marshal or General Officer (including Brigadier General)   |                |
| Colonel, if employed as such after the 31st December 1890, or if a Regimental Colonel, not being a General Officer | 100 "          |
| Colonel, not employed as such after the 31st December 1890, or Lieutenant Colonel                                  | 90 "           |
| Major  | 70 "           |
| Captain  | 50 "           |
| Lieutenant, or 2nd Lieutenant  | 40 "           |

An addition to these rates of 50 per cent. may be made when the Officers have died from illness contracted during active operations in the field, or in consequence of wounds received in the execution of military duty otherwise than in action. Double rates of pension may be granted when the Officers have been killed in action or have died of wounds received in action; in the case of Widows of General Officers, special pensions may be awarded according to circumstances.

The rates of pension awarded to the Widows of Riding Masters, Quartermasters, and Departmental Officers are governed by the Army or honorary rank of the deceased Officers.

\* Certain lands and premises, the property of Kilmainham Hospital, of the nominal rental value of 67*l.*, are let to the War Department, but no rent is now paid for them. The charge for the rent before 1889-90 fell upon Vote for Supplies, &c., and a corresponding sum appeared as an Appropriation in Aid of this Vote.

A sum of 60*l.* a year, Fire Insurance on the buildings of Kilmainham Hospital, is paid out of the revenues of the Hospital, and the amount of Appropriations in Aid is correspondingly reduced.

## Vote 16.

### SUPERANNUATION, COMPENSATION, COMPASSIONATE ALLOWANCES AND GRATUITIES.

**I.** AN ESTIMATE of the Sum which will be required in the Year ending 31st March 1897, to defray the Expense of SUPERANNUATION, COMPENSATION, and COMPASSIONATE ALLOWANCES and GRATUITIES.

One Hundred and Seventy-two Thousand Eight Hundred Pounds.

**II.** SUB-HEADS under which this Vote will be accounted for.

\* Some of the Officers transferred from the late Commissariat and Transport Staff are in receipt of higher Rates of Pay than those specified.

† These Officers, being Colonial Governors, receive no Staff Pay from Army Funds.

‡ As this Officer is also Governor of Malta, a part only of his Salary is derived from Army Funds; the remainder is paid by the Government of Malta.

\* Including Cyclist Corps and the Bermuda Corps.

† Adjutants of Volunteer Corps who are officers on the Full Pay List of the Regular Army receive, as a rule, the pay of their rank. The Adjutant of the Light Horse Corps, and Adjutants who are in receipt of half pay or retired pay, receive pay at the rate of 10s. a day. Lieutenants who are Adjutants of Artillery Corps receive 12s. 6d. a day, and Captains who are Adjutants of Artillery Corps receive 16s. a day.

‡ Acting Serjeant Majors, 2s.; others, 1s. 8d. a day.

§ Non-commissioned Officers serving on their Army engagements receive, generally, the pay of their rank, which may be either that of serjeant or colour serjeant (or its equivalent); in most cases they have the higher rank. Some pensioners appointed under old regulations are still serving, and receive 2s. 4d. a day in addition to their pension.

|| The clothing of Instructors serving on their Army engagements and attached to Volunteer Artillery or Engineer Corps, or to Volunteer Rifle Corps clothed in scarlet or green, is provided for in Vote 8.

\* Table money is granted to the General Officer Commanding in certain large Commands to meet the expenses of necessary hospitality. The amounts, and the stations at which they are given, are detailed in the column for table money, pp. 127, 129, of the Estimates.

General Officers Commanding, who occupy unfurnished quarters, receive furniture allowance at rates varying from 11s. to 5s. 6d. a day, according to the rank of the Officers.

*Forage Allowance.*—Forage allowance is governed by the average contract rates obtaining in the several military districts, plus 20 per cent. to meet the additional cost of buying retail. In these tables the calculation is made at 1s. 3d. a ration.

*Stabling Allowance.*—Stable allowance is granted at the rate of 9d. for the first horse, and 6d. per horse after the first.

*Fuel and Light Allowance.*—The rate of allowance for fuel and light varies with the season of the year and the number of rooms to which the Officer may be entitled.

\* Mess allowance is issued per Battery, but when granted personally is 6*l.* a year.† In certain districts Lieutenant Colonels receive command pay at the rate of 5*s.* a day.

‡ If commissioned prior to the 1st January 1887 this rate is granted after 10 years' service.

§ Quartermasters receive quinquennial increases of pay of 1*s.* 6*d.* a day up to a maximum pay of 15*s.* 6*d.* after 20 years' commissioned service.|| Riding Masters receive quinquennial increases of pay of 1*s.* 6*d.* a day up to a maximum pay of 16*s.* 6*d.* a day after 20 years' commissioned service.

Note.—Officers are, as a general rule, allowed a soldier servant; and Mounted Officers are allowed two soldier servants.

It is assumed that Lodging Money represents the value of barrack accommodation.

‡ If commissioned prior to the 1st January 1887 this rate is granted after 10 years' service.

§ Armament pay is not issued to Second Lieutenants until they have obtained a certificate of proficiency in Garrison Artillery duties.

|| Quartermasters receive quinquennial increases of pay of 1*s.* 6*d.* a day up to a maximum pay of 15*s.* 6*d.* after 20 years' commissioned service.

Note.—Officers are, as a general rule, allowed a soldier servant; and Mounted Officers are allowed two soldier servants.

It is assumed that Lodging Money represents the value of barrack accommodation.

\* Mess allowance is issued per Company, but when granted personally is 6*l.* a year.

† If commissioned before the 1st January 1887 this rate is not granted until after 10 years' service.

‡ Quartermasters receive quinquennial increases of pay of 1*s.* 6*d.* a day up to a maximum pay of 15*s.*, after 20 years' commissioned service.

Note.—Officers are, as a general rule, allowed a soldier servant, and mounted officers are allowed two soldier servants. It is assumed that lodging money represents the value of barrack accommodation.

† After deducting estimated Receipts.

Note.—The foregoing Statement showing the amounts included in the Army Estimates for military purposes in the Colonies is exclusive of the cost of Arms, Accoutrements, Barrack, Hospital, and other Stores, the greater portion of which is supplied from England, and the value of which cannot now be stated, but the value of the Stores supplied in past years is given in the Appropriation Accounts. The statement also omits Recruiting Expenses incurred at Home, Headquarter Administrative Expenses, Sea Transport, and Non-effective Charges. Expenditure incurred under the Barracks Act is not included.

## EXPLANATORY NOTES.

(a) It is assumed that Reservists will take the place of men with less than one year's service. The latter are therefore omitted from these numbers, but a corresponding provision is made under the head of Army Reserve.

(b) The numbers stated are for commissioned chaplains only.

(c) The numbers are those present at training in 1894, or absent with leave.

(d) The numbers represent the efficient in 1894.

(e) Registered horses. Registration fees, 7,000*l.*

(f) Superannuation only. The pensions of officers and soldiers are included under the "Regimental Officers and Men."

\* Channel Islands.

REPORT OF THE COMPTROLLER AND AUDITOR GENERAL  
UPON THE  
ACCOUNTS OF THE ROYAL ARMY CLOTHING FACTORY,  
FOR THE YEAR 1894-95.

[Prepared and Submitted in accordance with Act 52 & 53 Vict. c. 31, s. 1.]

*Test Examination of Accounts, 1894-95.*

1. THE test examination of the Army Clothing Factory Accounts for the year 1894-95 has proceeded on the same lines as in previous years.

BALANCE SHEET.

*Wages.*

2. There is a trifling difference of 2s. 1d. between the amount shown as expended upon Wages (64,558l. 10s. 5d.) and that stated in the Army Appropriation Account, Vote 8 (64,558l. 12s. 6d.), certain unclaimed Wages having been omitted from the charge in the Factory Account, while in the Appropriation Account the adjustment has been made by a credit to Appropriations in Aid.

*Materials.*

3. The sum of 218,816l. 10s. 5d., for "Materials as per Appropriation Account," represents the value of the Materials issued to the Factory from the Store Department. From this amount, however, must be deducted the value of the remnants returned into Store during the year, viz., 3,131l. 5s. 4d., in order to show agreement with the amount included in the Appropriation Account under this heading, viz., 215,685l. 5s. 1d.

*Capital Account.*

4. It has hitherto been the practice to charge the annual expenditure upon tools and implements to Capital Account, charging the cost of production with an annual depreciation of 10 per cent., as in the case of machinery. My attention having been drawn to the comparatively small expenditure upon this service, and the trifling cost of some of the tools, which in some cases were expended in the year of issue before any depreciation had been levied upon them, I suggested to the War Office that the annual expenditure under this head should be taken up in the Accounts of the year, the balance standing on the Capital Account (754l. 7s. 5½d.) being charged off to Production by instalments.

This suggestion was accepted, and the sum of 220l. 0s. 7d. included in the Accounts for "one year's expenditure on Tools and Implements," represents the amount expended in 1894-95 (65l. 13s. 1½d.), together with 154l. 7s. 5½d., as an instalment of the outstanding balance, the remainder of which will be charged off in instalments of 150l. in the Accounts of the next succeeding four years.

C. L. Ryan,  
Comptroller General of the Receipt and Issue  
of Her Majesty's Exchequer, and  
Auditor General of Public Accounts.

Exchequer and Audit Department,  
11 March 1896.

# ARMY (ORDNANCE FACTORIES).

## ORDNANCE FACTORIES ESTIMATE,

1896-97.

**I.** AN ESTIMATE of the Sum required in the Year ending 31st March 1897, to defray the Expense of the ORDNANCE FACTORIES, the Cost of the Productions of which will be charged to the Army, Navy, and Indian and Colonial Governments, &c.

One Hundred Pounds.

**II.** SUB-HEADS under which this Vote will be accounted for.

*General Observations.*

1. ADVERTING to the Fourth Report of the Public Accounts Committee, 1895, on the subject of the discontinuance of the Piece-work Ledgers, &c. of the Ordnance Factories, and to their recommendation in the 11th paragraph that a conference should be held between the War Office, the Treasury, and my Department, with a view to means being devised for securing the objects referred to in the 4th paragraph, viz.: first, that operations in the workshops are not paid for twice over; and, secondly, that all work which is paid for and which should be sent into store, is actually received there,—I have to report that a conference has been held between representatives of the three Departments.

Conference on Ordnance Factories Accounts.

Although I am unable as yet to report that a satisfactory conclusion has been arrived at, it is hoped that the further consideration to be given to the matter will result in those important objects being practically attained.

2. Considerable improvement has been shown in the book-keeping of the Factories Accounts, and irregularities in connection with transfers and adjustments at the end of the year, to which attention has been drawn in previous reports, have in great measure disappeared.

Improvement in book-keeping.

*Royal Gun Factory.*

3. The Semi-manufacture Remain of the Royal Gun Factory on the 31st March 1894 included, for the first time, a number of forgings at no value, marked "Not R.G.F. property." From inquiries made by my Department it appeared that these, together with other forgings not detailed in the Remain, had been found during a clear-up of the Gun Factory Forges. They had presumably been charged to the Services "at some time or other," but the exact distribution of the charge amongst the Services could not be ascertained, and it had therefore been decided to credit their value, viz., 4,435*l.* 4*s.* 3*d.*, as occasion arose, to Indirect Expenditure. Of this amount Forgings to the value of 1,700*l.* 10*s.* have been utilised in 1894-95, and credit has accordingly been given to Indirect Expenditure to that amount, while it is presumed the remainder will be similarly dealt with as opportunity for utilising them arises.

Surplus forgings found.

4. As a set-off, however, to this windfall of 4,435*l.* 4*s.* 3*d.*, other forgings included in the Gun Factory Stores-in-Stock, at a value of 13,276*l.* 8*s.* 9*d.*, are now stated to be nearly all obsolete, and steps are being taken to dispose of them. A portion have been utilised in the Factory at a reduced value, but the bulk have been returned to the Central Stores for sale.

Obsolete forgings.

In reply to an inquiry which has been addressed to the War Office for an explanation of the loss that has already been debited in the Accounts, I have been informed that these forgings have been in Remain for several years, and that they were surplus requirements and were, therefore, transferred to the Stores for disposal.

I am not aware of the circumstances under which these costly forgings have become obsolete, involving a loss of over 2,000*l.* on those for which a use has already been found, while it is estimated by the War Office that the total loss will eventually amount to about 8,000*l.*

*Royal Laboratory.*

5. My attention has been directed to several instances in which material, drawn for use in the shops, and included in the Charges to Services as Semi-manufacture on the 31st March 1894, has been disposed of by sale in 1894-95, for considerably less than the value assigned to it in the Semi-manufacture Remain. The consequent loss has been debited when practicable either to the particular Cost Ledger Order concerned, or to the Indirect Expenditure of the Factory. The following may be cited as the most conspicuous

Loss on disposal of materials.

spicuous example that has come under notice. The cost of "Tubes Vent Sealing" has this year been enhanced by the sum of 1,033*l.* 2*s.* 11*d.*, representing the loss upon 21 tons of "Bull's Metal," which, it was stated by the War Office could not be used owing to a "change in the manufacture." The metal was sold for 665*l.* 10*s.*, while the value placed on it in the Remain had been 1,698*l.* 12*s.* 11*d.*, a difference between the buying and selling prices of Raw Material which is so large as to deserve notice.

Transfer of charges to "Repairs."

6. The Indirect Expenditure of the Royal Laboratory includes a sum of 1,392*l.* 9*s.* 1*d.* in respect of an overcharge to the Army Order for Repairs, 1893-94, to which I drew the attention of the War Office on the Accounts for that year. It was admitted, in reply, that this overcharge to the Repair Order was made to correct "absurd cost results" on other Orders, arising from supposed errors in allocation which could not be traced. The fact that no details are given of the large amounts charged for "Repairs" in the Production Voucher renders this admission important, and it is hoped that, attention having been drawn to the irregularity, care will in future be taken that "Repair" Orders shall not be burdened with other than legitimate charges.

#### *Royal Gunpowder Factory.*

Materials taken on charge at less than cost price.

7. I called the attention of the War Office to the inclusion in the Indirect Expenditure of the Cordite Factory of a sum of 974*l.* 8*s.* 10*d.*, being the difference between the actual cost of the manufacture of calcium acetate at Woolwich, and the market value assigned to it in the Waltham Store Ledgers. The War Office in reply states that, the manufacture at Woolwich being still in an experimental stage, it has been considered advisable to charge this difference of cost in the current year's account, but the subject is one which appears to call for notice, as the course followed is not in harmony with the ordinary rule under which materials are taken on charge at their cost price.

#### *Royal Carriage Department.*

Work-taking in Sawyers' shop.

8. The attention of the War Office has several times been drawn to the advisability of introducing the work-taker system into the Sawyers' shop in the Carriage Factory, in lieu of the present method under which wages are paid on the certificate of the foreman only; and I have been informed in reply to my last communication on this matter, that "this subject is under the consideration of the Committee on Ordnance Factories' Accounts." That the question is of some importance is shown by a case which has come under the notice of my Department in the course of the examination of the Carriage Factory Accounts for the year under review, from which it appeared that in executing an order for some Posts and Rails for the Tower of London, on behalf of the Army, an overcharge of 74*l.* 3*s.* 4*d.* had been made in an Account of 153*l.* 19*s.* 4*d.*, included in the Production Voucher for 1893-94. Of this sum of 74*l.* 3*s.* 4*d.*, an amount of 35*l.* 13*s.* was overpaid for Wages, and has since been recovered by deductions from the wages of the workmen concerned, the balance being distributed generally over the cost of the Productions of the Carriage Factory for 1894-95. It appears to me that had a proper system of independent verification of wages due been in force in the Sawyers' shop, such an overpayment could scarcely have occurred.

#### *Finished and Unfinished Articles in Ordnance Factory Stores.*

Articles in Semi-manufacture Remain.

9. Both as regards the Royal Laboratory and Royal Gun Factory, attention has been called to a large number of finished articles which have continued in the Semi-manufacture Remains of these Factories throughout 1894-95, and in some cases through 1893-94 and previous years.

I have been informed, in reply to an observation on this subject, that some of the articles referred to have been issued, and that the remainder are being dealt with as opportunities occur.

As regards unfinished articles, a number, of the value of several thousand pounds, on which no progress was made in the year 1894-95, are also included in the Semi-manufacture Remains of the Gun Factory and the Laboratory on the 31st March 1895. It is stated by the War Office that the attention of the Factory has been for some time directed to this subject, with a view to the clearance of such of the articles as are not worth keeping. The remainder it is hoped to utilise as opportunities occur.

I am not, however, aware of the circumstances under which this accumulation of unfinished articles has arisen, nor why the completed articles were not issued to the Services by which they were presumably ordered, and by which they had been paid for as Semi-manufacture.

#### *Indirect Expenditure Statement.*

Alteration in form of Indirect Expenditure Statement.

10. The form of this Statement has been slightly altered in order to bring it more into line with the expenditure "as per Appropriation Account," as detailed in the Balance Sheet. The charge which has hitherto been shown as "General Administration," under which was included not only the salaries of the Director General of Ordnance

Ordnance Factories and his staff, but also the cost of the Pay and Store Departments, and of the writers engaged on Cost Accounts, and the wages of worktakers and time-keepers, is now shown in detail, as far as possible, under the Estimate headings.

It appears desirable that this statement should be further amended in order to show more distinctly the expenditure on tools, &c., which in 1894-95 amounted to 58,000*l.*, and other services, the cost of which amounts to a considerable sum, and which in the present Account are included in "Other items." Sufficient time has not elapsed for a reply from the War Office to my communication on the subject.

*Stock-taking.*

11. Independent stock-taking by officers of the Accountant General has been carried out, during 1894-95, of the stores at Woolwich, where stock has been taken to the value of 24,057*l.*, the total value of the stores in stock on 31st March 1895 being 281,727*l.* The test has ranged over a considerable number of articles, and the surpluses and deficiencies were unimportant. Stock was also taken at Enfield to the amount of 62,000*l.*, out of a total stock of 81,916*l.*

I have drawn attention to the omission to test the Ordnance Factory stores in possession of the Superintendent of Building Works, since their inclusion at value in the Ordnance Factory Accounts in 1891-92, and have been informed, in reply, that "this will be carried out shortly."

*Stores in Stock.*

12. The total value of the stores in stock on 31st March 1895 at the various Factories was 485,763*l.* 9*s.* 11½*d.*, an increase during the year of 24,426*l.* 10*s.* Of this amount, 4,047*l.* 3*s.* 3½*d.* was added "free" in connection with the transfer to Ordnance Factories of the Repairing Factory at Birmingham.

*Agreement between Credits in the Balance Sheet and those shown under Appropriations in Aid of the Vote.*

13. I append the usual Statement showing the agreement between the credits in the Balance Sheet and those recorded in the Appropriation Account of the Ordnance Factories.

## Memorandum by the Secretary of State relating to the Army Estimates, 1896-7.

Comparison of Estimates of 1895-6 with those of 1894-5.

The Army Estimates for the year 1895-6 showed a decrease of 22,100*l.*, a net result, which mainly arose from a considerable fall in the prices of supplies, partly counterbalanced by an increase of the Sinking Fund to repay loans under the Barracks Act.

Comparison of figures for 1895-6 with those of 1896-7.

In the Estimates for 1896-7 there is a decrease of 7,200*l.* upon effective services and an increase of 10,000*l.* upon non-effective, giving a net increase of 2,800*l.* upon all services. Owing to the special grants made to Volunteer Corps for 1895-6, and provided for in the Supplementary Estimate of 26th February, 1896, a saving of 199,700*l.* is effected in the Volunteer Vote, but against this is to be set an increase of expenditure on warlike and other stores, and the additional expenditure required for the extended manœuvres to be carried out this year.

Changes of Establishment.

The proposed changes of Establishment involve a net increase of 771 men to the Army. The principal changes provided for are the addition of 120 men to each of the three Infantry battalions serving in Nova Scotia, Bermuda and the West Indies, in order that those battalions may be augmented to the same Establishment as other Line battalions serving in the Colonies; and the addition of two companies to the Royal Malta Artillery.

Egypt.

Sir Henry Campbell-Bannerman, in his memorandum on the Army Estimates, 1895-6, expressed a hope that it might be found possible to withdraw a battalion from Egypt during 1895. This hope was not realized, and the events which have recently taken place in that part of Africa render it improbable that there will be a reduction of the Egyptian garrison during the current year.

Rearmament of Horse and Field Artillery.

The reorganization of the Royal Artillery, decided upon by the late Government, has been carried out, so far as regards the increase of the corps by one Horse and seven Field batteries; and special steps are now being taken to provide, as rapidly as possible, the new and the converted guns required. The whole of the Horse Artillery is to be re-armed with the new gun, and the 60 guns thus rendered available for the Field Artillery, as well as the whole of the guns already in its possession, are to be converted from 12-pr. to 15-pr. It is highly desirable that the period of transition which this scheme involves should be as brief as possible, and it has, therefore, been decided to push forward the conversion of Field Artillery guns which is in progress at the Ordnance Factories, and to proceed with the new guns at a greatly accelerated pace, giving part of this latter work to the trade and part to the Factories.

Satisfactory progress is being made in giving effect to these proposals. A part of the new Horse Artillery equipment has already been supplied by the Ordnance Factories. The remainder of the equipment which the Factories have undertaken to provide will, it is hoped, be delivered by the 1st of June; and that portion which has been given to the trade has been promised by the end of August. As regards Field Artillery, a number of guns sufficient to supply two Army-Corps will have been converted within three months from the present time. The conversion of the remainder will be proceeded with as rapidly as the engagements of the Factories permit. When the whole work has been completed, the present establishment of Horse Artillery will be

in possession of its full complement of guns, and their reserve; while the Field Artillery will have its full complement of guns, its reserves, and a certain number of surplus guns.

The recruiting for the Army during the year 1895 has been satisfactory. **Recruiting.** There has been no difficulty in obtaining the full number of recruits required, and the Establishment of the Army on the 1st January, 1896, was complete. During the past five years there has been a progressive decrease in the number of special enlistments below the fixed standard, the percentage having fallen from 22.9 per cent. in 1891 to 19.9 per cent. in 1895. The Inspector-General reports that 67 per cent. of those enlisted under standard during the first six months of 1895 were found to have reached the full standard on re-measurement on 1st January, 1896. The loss from desertion during the past year was smaller than in any previous year since the establishment of the short-service system.

The Militia Force generally is reported by the Inspector-General of Militia. Auxiliary Forces to be in an efficient state. There was an increase of over 1,900 in the number of recruits enlisted during 1895, compared with the enlistments in 1894, and also an increase of 400 in the number of Militiamen present at the training of 1895 compared with the previous year.

In the Yeomanry there has been a slight decrease in the numbers of men, **Yeomanry.** but the strength of Officers is well maintained. The force has much improved in efficiency under the brigade system, which promotes a healthy rivalry between regiments. Last year a deputation of Commanding Officers appealed to the War Office against the reduction which had been made in the lower rate of Contingent Allowance, and asked that a grant of 1*l.* should be made for men who qualify in musketry but who are unable to attend drill or permanent duty. The desired concession has been granted, and provision is made accordingly in the Estimates.

The condition of the Volunteer Force remains satisfactory. The number of **Volunteers.** Volunteers returned as efficient exceeded by more than 400 the figures for the previous year, but there was a slight falling off in the numbers present at inspection; the total for 1895 being 198,673 as against 200,592 for 1894.

Difficulty continues to be experienced in obtaining Officers for this Force, which is at present in this respect 1,800 below its Establishment. An additional sum has been taken in order to assist Officers in providing an outfit. A further sum has been provided for grants to Officers attending schools of instruction.

The special extra payment to Volunteer Corps out of the sum voted in the Supplementary Estimate of the 26th February, 1896, will, it is hoped, place the finances of the force on a satisfactory footing. The effect of the payment will be that every corps will receive, at about the ordinary time, an additional half-year's grant beyond the usual allowance.

Instead of the usual provision for manœuvres, the Estimates for 1896-97 **Manœuvres.** provide for carrying out manœuvres on an extended scale. A permanent measure for facilitating such manœuvres is before Parliament.

The current prices for bread and meat continue to be exceptionally low. **Prices of supplies.** There is no material variation from the rates of last year. Upon fuel some reduction is anticipated, and a saving of 35,300*l.* is expected owing to reduction in the price of forage.

The new system of hiring transports, in lieu of maintaining troopships, has **Hired transports.** not been sufficiently long in operation to allow of a final decision as to relative expense, but the hiring system has not been very costly. For the year 1896-7 the programme of moves is exceptionally small, and there is consequently a considerable reduction in the estimated cost.

**Clothing.**

The Clothing Vote shows an increase of 18,000*l.*, mainly attributable to expenses for the manoeuvres, and the cost of completing the issue of helmets for the Militia. Prices also rule higher than last year.

**Magazine rifles.**

The progress in the manufacture of magazine rifles is satisfactory. The trade companies will have delivered about 205,000 of these rifles for the Army by the end of this year. The Ordnance Factories had supplied about 307,000 up to 31st March, 1895. They have, during the past year, been chiefly engaged in converting Martini-Henry rifles, the only magazine rifles produced being those required for the Navy. The whole of the Regular Forces at home and abroad and the Militia having been armed with the magazine rifle, and the necessary reserve of the same weapon having been provided, it has been decided to rearm the Volunteers with the magazine rifle, and the manufacture of this rifle will now be proceeded with. The necessary provision for this purpose has been made in the Estimates.

The Martini-Henry rifles which have already been fitted with the .303 barrel will be available for reserve purposes.

**Cordite.**

The experiments which have been carried on by the Ordnance Committee with a view to testing the keeping qualities of cordite have given very satisfactory results. Time alone can fully test the extent of its keeping qualities in all climates, but in all the experiments and trials to which it has been subjected, it has never been rendered unserviceable. The trade has now begun to make regular deliveries of cordite, both for guns, and in made-up cartridges, for the magazine rifle. Although the trade output is not as yet large, there are grounds for hoping that it will gradually increase during the coming financial year and will form a valuable addition to our resources.

**Small-arm  
ammunition.**

By means of the supplementary sum voted during the present year, considerable advance has been made towards the completion of the reserves of small-arm ammunition. It is necessary, however, to take a further increased amount, in order to bring them up to the proper standard.

**Works.**

The Works Vote provides for but few new services to be undertaken during the year; the increased expenditure of 18,100*l.* is chiefly due to an automatic increase in the amount payable for annuities under the Barracks Act. The sums of 4,100,000*l.* raised under the Barracks Act of 1890, and 2,600,000*l.* raised under the Imperial Defence Act of 1888, having now been virtually exhausted, it is intended, by means of a further loan, to proceed with urgent services for Imperial Defence, and to provide for a steady prosecution of barrack reconstruction.

The condition of the buildings in which a large part of the troops are housed, both at home and abroad, renders considerable expenditure for the latter purpose absolutely necessary.

**Ranges.**

Owing to the increased range of the .303 rifle, which has rendered many of the old ranges unsafe, the acquisition of extended ranges has become an urgent question, and it is proposed to provide the necessary funds for this service also by means of the loan above mentioned.

**Ashanti.**

Part of the cost of the operations against Ashanti has already been borne by the Colony, and the remainder, 120,000*l.*, which has been provided by means of a Supplementary Estimate, will in time also be repaid from Colonial funds.

**Non-effective.**

The increase of 10,000*l.* upon the Non-effective Votes is chiefly due to increased retirements of regimental and civil Officers and to special campaign pensions.

# ARMY VOTES, 1895-96.

TREASURY MINUTE, dated the 18th March 1896, under Section 4 of the Appropriation Act, 1895 (59 Vict. c. 6), authorising the temporary application of Surpluses to meet Excesses.

MY Lords have before them a letter from the War Office, dated the 13th instant, representing the probable surpluses and excesses on Exchequer Grants for Army Services for the year 1895-96, accompanied by explanations showing that it would be detrimental to the Public Service to postpone the expenditure causing those excesses until provision can be made for it by Parliament in the usual course, and proposing, therefore, to defray such excesses temporarily out of surpluses, viz. :—

| VOTE and SERVICE.                           | Probable<br>EXCESS<br>over<br>Exchequer<br>Grant. | Probable<br>SURPLUS<br>of<br>Exchequer<br>Grant. | CHIEF CAUSES.   |
|---|---|--|---|
| VOTE 2.<br>Medical - - - - -                | £.<br>2,000                                       | £.<br>-  | An under-estimate of effective numbers, and of annual increments.   |
| VOTE 4.<br>Yeomanry - - - - -               | 4,600   | -  | Due to a repayment to the Commanding Officer of the Shropshire Yeomanry Cavalry of certain moneys subscribed for the Force, which had been paid to the War Department in April 1882, by the then Commanding Officer. The repayment included interest at 2½ per cent. per annum. |
| VOTE 5.<br>Volunteers - - - - -             | 10,800  | -  | The attendance in Camp was greater than had been provided for.  |
| VOTE 6.<br>Transport - - - - -              | 1,600   | -  | A falling short in the receipts from sale of cast horses.   |
| VOTE 8.<br>Clothing - - - - -               | 54,800  | -  | Increase in the amount drawn by men as compensation in lieu of clothing.  |
| VOTE 9.<br>Warlike Stores - - - - -         | 13,000  | -  | A greater output from the Ordnance Factories than had been expected.  |
| VOTE 10.<br>Works and Buildings - - - - -   | 3,000   | -  | A sum of 6,000 <i>l.</i> has been spent upon works provided for in the Imperial Defence Loan of 1888, but not finished before that Loan was exhausted.  |
| VOTE 12.<br>Miscellaneous - - - - -         | 1,600   | -  | Repayment to the General Post Office of expenses connected with the investment of soldiers' deferred pay in the Post Office Savings Bank.   |
| VOTE 15.<br>Chelsea Pensions, &c. - - - - - | 10,900  | -  | The award of special campaign pensions.   |
| Other Army Votes - - - - -                  | -   | 118,700  | The chief items are 25,000 <i>l.</i> on the Militia Vote, due to an over-estimate of numbers, and 84,000 <i>l.</i> on the Provisions, &c. Vote, due to cheapness of Forage and Coal.  |
| £.  | 102,300   | 118,700  |   |
| Net Surplus - - - £. 16,400                 |   |  |   |

Under the powers given to them by Section 4 of the Appropriation Act, 1895, my Lords authorise the temporary defrayment of the foregoing excesses out of the surpluses accordingly.

STATEMENT showing the TRANSFERS during the Year 1894-95 of LAND, the Property of the War Department, in which either the Money which passed represented only a portion of the consideration, or no Money at all passed.

| To whom Transferred.     | Description of Property.                                  | REMARKS.  |
|--------------------------|---|---|
| Malta Civil Government - | 1 rood 14 perches of land in the Strada Mezzodi Valletta. | This land, which was valuable to the Civil Government as a building site, was transferred in exchange for the site (2A. OR. 14P.) of the old Ospizio, which adjoined the Floriana Barracks, and was very valuable to this Department as affording a site for the extension of the barracks to render it capable of accommodating a battalion. As the values of the two sites were approximately the same no money passed. |

REPORT of the COMPTROLLER and AUDITOR GENERAL on the ACCOUNT of the Money Raised and Issued out of the Consolidated Fund under the Provisions of the BARRACKS ACT, 1890 (53 & 54 Vict. c. 25), the Securities created in respect thereof, and the Amount expended for the Purposes of the said Act, to the 31st March 1895.

1. THE present is the Fifth Account of Expenditure under the Barracks Act, 1890.

*Issues from Consolidated Fund.*

2. The sum of 670,000*l.* was issued from the Consolidated Fund in the year 1894-95, raising the total issues to 2,435,000*l.*, and leaving a further sum of 1,665,000*l.*, which may be issued for the purposes of the Act.

*Expenditure.*

3. The expenditure in 1894-95 amounted to 672,928*l.* 5*s.* 9*d.*, making with that previously incurred a total of 2,407,881*l.* 1*s.* 9*d.*, and leaving an unexpended balance of 1,692,118*l.* 18*s.* 3*d.* of the total amount of 4,100,000*l.* authorised for the purposes of the Act.

*Terminable Annuity.*

4. The sum of 670,000*l.* was raised in the financial year 1894-95, and a terminable annuity of 55,927*l.* was created in respect of 700,000*l.*, the amount which was advanced by the National Debt Commissioners in the calendar year 1894. The Army Appropriation Account for 1894-95 shows under Vote 10, Sub-Head J., expenditure amounting to 75,563*l.* 18*s.*, in respect of "Annuities payable under the Barracks Act," which were created in 1892-93 and 1893-94.

*Credit under Head 3.*

5. In the detail of expenditure at page 3 the sum of 10*l.* 10*s.* is shown as a credit under Head 3, Purchase of Land and Buildings, Belfast, that sum having been received from the sale of trees which were removed to clear for building a site purchased in the year 1890-91. In the ordinary course this receipt would have reduced the expenditure in the account of the earlier year, but in consequence of the lapse of time since the purchase of the site it has had the effect of reducing by 10*l.* 10*s.* the expenditure of the year 1894-95.

C. L. Ryan,  
Comptroller General of the Receipt and Issue  
of Her Majesty's Exchequer, and  
Auditor General of Public Accounts.
